Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Mr. Carroll argued that the data in Figure 6B showed that the combination of CDDP and tyrphostin acted synergistically rather than additively. The Examiner suggested that Mr. Carroll put the argument in writing in the next response. The possibility of amending claims to employ language such as "synergistically effective amount" was discussed. The Examiner stated that it would be necessary to review the specification to determine whether such an amendment would have adequate support.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)
